**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docker No. 18-141; Category 1**

Dear FCC,

My small business relies on a fast, reliable, affordable internet connection. The best connection for my company's needs is the local provider Sonic. Without their service, no other provider service my address with speeds my business needs at prices my business can afford. My access through Sonic is provided over copper leased from AT&T. Please make sure that this competitive service is allowed to connect the homes and businesses in my area. If it wasn't for Sonic service over copper, my only "options" would be AT&T or Comcast, both of which do not provide competitive speeds or prices when compared with my local provider. Thank you.
